Job Market Paper

Shreya Chandra, "Irregular Labor Supply and Coordination in the Workplace: Experimental Evidence from India"

Abstract: Firms in developing countries face irregular labor supply – uncertainty in whether and when workers will arrive at work. Such uncertainty is especially costly when production requires coordinating labor inputs. This paper uses a randomized experiment with 96 small manufacturing firms in India to examine how irregular labor supply affects firms' ability to coordinate production. In the status quo, three in five workers arrive after their firm's start time on average. I incentivize workers at 20% of their daily earnings to arrive by the start time for four weeks. Incentives increase timely arrival from 41% to 59% of worker-days, driven by these late workers. Worker output increases by 24% for all workers in treatment firms, not only those who changed their arrival times as a result of the incentive. I show that these spillovers come from gains along the production line due to improved coordination. Treatment firms produce 29% more output, receive 21% more new orders and are 40% more likely to complete orders on time.

Working Papers

"Can Flexible Microcredit Substitute For Informal Finance? Experimental Evidence from Market Vendors in South India," with Natalia Rigol and Benjamin Roth.

> **Abstract:** Informal moneylender credit remains common even where formal microfinance is widely available. We evaluate a flexible working-capital loan for market vendors in Tamil Nadu, India, in a randomized trial. The product offers formal-sector interest rates but is structured to mirror informal credit, with short tenures and borrower-chosen repayment schedules. Access substantially reduces reliance on moneylenders: treated vendors are 10 percentage points less likely to have an outstanding moneylender loan, hold nearly half as many such loans overall, and owe significantly less to moneylenders in total. They also report improved mental health, lower financial worry, and higher household income.

Grants, Fellowships, & Awards

UC Dissertation-Year Fellowship	2026–2027
Weiss Fund for Research in Development Economics, UChicago ($25,000, co-PI)	2026
Hart Fellowship in Tamil Studies, Institute of South Asia Studies, UC Berkeley	2025
Structural Transformation and Economic Growth ($20,000)	2025
CEGA Development Economics Challenge, UC Berkeley ($48,000)	2023–2025
Private Enterprise Development in Low-Income Countries ($18,500)	2024
International Growth Centre, London School of Economics ($15,000)	2024
Weiss Fund for Research in Development Economics, UChicago ($27,000)	2024
Weiss Fund for Research in Development Economics, UChicago ($7,000, pilot project)	2024
J-PAL Jobs and Opportunity Initiative ($58,000, co-PI)	2023
SurveyCTO Primary Data Collection Grant, Honorable Mention	2023
ARE Summer Stipend, UC Berkeley	2023

Conferences & Workshops

2027 — STEG Annual Conference and Theme Workshops*

2026 — NEUDC 2026 (Cornell)*; Elisabeth Sadoulet Memorial Conference (UC Berkeley)*; Development Seminar (UC Berkeley)*; CEGA R^2 (UC Berkeley)*; ARE Seminar (UC Berkeley); PacDev (UC Davis); DevPec (Stanford); 5th AMIE Workshop

2025 — EUDN PhD Workshop (CERDI); Advances with Field Experiments (UChicago); CEGA Research Showcase, UC Berkeley; World Bank DIME–KDI School Development Impact Conference; CSWEP Mentoring Workshop

* *Scheduled.*

Teaching Experience

Data and Decisions, UC Berkeley Haas (MBA)	Fall 2022, 2024, 2025, 2026
Ethics and Responsibility in Business, UC Berkeley Haas (MBA)	Spring 2026
International Economic Development, UC Berkeley (MDP)	Spring 2022, 2023
Development Economics, UC Berkeley (Undergraduate)	Fall 2020, 2021

Research & Professional Experience

Senior Research Associate, Innovations for Poverty Action / STC, World Bank	2023–2025
Graduate Student Researcher, Prof. Edward Miguel, UC Berkeley	2022–2025
Graduate Student Researcher, Prof. Nick Tsivanidis, UC Berkeley Haas	2021
Research Associate, Prof. Tavneet Suri, MIT Sloan	2018–2020
Research Associate, Profs. Natalia Rigol and Benjamin Roth, Harvard Business School	2018–2020
Research Associate, Evidence for Policy Design India, IFMR LEAD	2017–2018
